

How to reset Network Settings and Proxy

- Go to Settings
- Scroll down left side to Safari
- Scroll down right side to Advanced
- Select Website data and tap Remove All Website Data

- Scroll back up to General
- Scroll down right side to Reset
- Select Reset Network Settings, type in the Passcode and select Reset.

- iPad will then restart
- Log back in.
- If you are at home, you will need to re-enter your home wifi details
- Once wifi is connected tap Safari
- Proxy authentication dialog box will pop up
- Select Settings
- And login with **clusterX\Username** for the school computers and the password.
- Choose your cluster number from the list below:

Cluster1 – Gala

Cluster2 – Selkirk

Cluster3 – Jed and Kelso

Cluster4 – Eyemouth and Berwickshire

Cluster5 – Hawick

Cluster6 – Peebles

Cluster7 - Earlston
